Respectfully submitted,

A. B. MOORE, Treas. of committee.

Report of the School Board.

With but three exceptions, the schools of the town have been in session for thirty weeks during the past year.

The three schools that did not keep the full thirty weeks, were closed earlier in the winter than the others, because, in the judgement of the committee, the weather conditions were such that it was practically impossible to secure an attendance sufficiently large to insure profitable schools.

In a few districts the schools were somewhat broken up on of the whooping-cough, but in general the attendance has been equal to the average of past years and the pupils have made good progress in their studies.

We believe that taken as a whole the schools in town have been fairly successful, and that the teachers have given good satisfaction.

We wish to commend the teachers for the disposition they have shown to improve themselves for their work.

That the schools of Northwood maintain a high standard is shown by the fact that when pupils leave here and go to other places, they are placed in high grades and receive rapid promotion and also by comparison with pupils of other towns who come here.

We earnestly desire the co-operation of the citizens and parents in order that this standard may be maintained.

It has been the policy of the board to retain the same teacher in the schools where they show especial adaptation for the position. Sometimes this has necessitated an increase of salary, but we think that the interest of all concerned are better served in this way.

We recommend that the town take some action in regard to the schoolhouse at the Ridge, as it is badly out of repair.

The following are the names of pupils not absent or tardy for the school year ending Aug. 1, 1902.
